vehicle in front LED pro rear light
cluster Dynamic turn signals and
light sequences

Audi connect Navigation & Infotainment

Front Emergency Brake Assist Scans
the area in front of the vehicle and,
depending on the situation and
speed, can warn of an impending
collision and initiate appropriate
braking measures. Pedestrians and

	cyclists can be detected up to a speed of around 85 km/h, and vehicles up to maximum speed. If an imminent head-on collision is detected, the system issues a visual, acoustic and haptic warning. To reduce speed or avoid a collision.
Mirror housings in vehicle color	Audi phone box light
Interior trim elements top and bottom with contrasting stitching	Front Intersection Assist monitors the area in front of and to the side of the vehicle at intersections and exits, using radar sensors integrated into the front of the vehicle. Within the limits of the system, it detects moving objects such as approaching cars. The system operates in a speed range up to 65 km/h. In situations deemed critical, the system issues warning messages in several stages. First, a visual and audible warning is issued.
Three-spoke leather S multifunction steering wheel with paddles	Manual steering wheel adjustment
Driver and passenger airbags with airbag deactivation on passenger seat	Lumbar support
Audi Virtual Cockpit Plus	Audi Drive Select Allows you to select different driving modes: Efficiency, Comfort, Dynamic, Lift, Individual. Vehicle systems and equipment adapt according to the mode selected
Pro ambient lighting	Audi Sport wheels, 5-twin-spoke design, black metallic 8.0J x 19, tires 245/40 R19
i-Size child seat attachment system for front passenger and i-Size and Top Tether for rear outboard seats	Black fabric headliner
Privacy glass: rear window, rear door windows and rear side windows tinted	Stainless steel pedals and footrests
Electrically opening and closing tailgate
