Toyota C-HR

Hybride Rechargeable 225 Design

Plug-in Hybrid Gasoline - Automatic - 14km - 01/2026

Ref 56611

Description

Make	Toyota
Model	C-HR
Description	Hybride Rechargeable 225 Design
Mileage	14 km
Type	Passenger car
Body type	SUV / Off-Road
Doors	5
Seats	5
Exterior color	White
Interior color	Other
Upholstery	Other

Technical

Fuel type	Plug-in Hybrid Gasoline	Gears	1
Gearbox	Automatic	Cylinders	4
Cylinder capacity	1987 cc	Horse power	153 hp
Power KW	112 kw		
Drive train	Front		

Dimensions

Weight empty	1720 kg	Weight max	2855 kg
Wheelbase	2640 cm	Length	4362 cm
Height	1564 cm	Width	1832 cm

Toyota C-HR

Hybride Rechargeable 225 Design

Plug-in Hybrid Gasoline - Automatic - 14km - 01/2026

Ref 56611

Registration and Warranty

First Registration	30-01-2026		
Warranty start	31-12-2025	Warranty end	31-12-2028
Warranty length	36 months		
Battery Warranty start	31-12-2025		

Options

Comfort

Automatic climate control	Keyless start
Seat heating front	Steering power
Steering wheel heated	

Safety

ABS	Alarm
Cruise control adaptive	Emergency call
ESP	Parking assist camera
Tire pressure check	Traction control

Infotainment

Bluetooth	USB
-----------	-----

Extras

Alloy wheels

Hybride Rechargeable 225 Design

Plug-in Hybrid Gasoline - Automatic - 14km - 01/2026 Ref 56611

Equipment

Front and rear parking radars (PKSB) When driving at low speed or in reverse, the radars can detect static objects (obstacles, walls, etc.) or moving objects (vehicles crossing in reverse), and the parking aid braking system provides assistance to reduce the impact.	3 USB-C ports
Rear Cross Traffic Alert (RCTA) This warning system uses blind spot sensors to detect vehicles approaching from the side when you are reversing out of a parking space. If it detects a risk of collision, the system automatically brakes and stops the vehicle.	Electric front/rear windows
6 HP	Full LED lights (front/rear and fog lights)
Smart Entry & Start keyless entry and start system	18" two-tone matte anthracite gray and aluminum alloy wheels
Heated front seats	Puncture repair kit
Driver Attention Monitor (DAM) This system uses a camera above the steering wheel to monitor the driver's alertness and condition. The system sends a warning if it detects an abnormal condition, such as fatigue. These activities are used to improve the performance of the Emergency Stop Support System (EDSS) through early detection of distraction.	Monochrome interior mood lighting, non-customizable and non-interactive: footwell/passenger storage compartment
Automatic activation of rear hazard warning lights (FHL)	8 airbags
Dual-zone automatic climate control	Two-tone anthracite gray fabric upholstery with white stitching
Continuously variable automatic transmission	E-Call" automatic emergency call system
Laminated soundproof glass	Induction smartphone charger

Tinted rear windows and glass	Rear Seat Reminder System (RSRS)
Heated steering wheel	Front LED optics with Premium light signature
Electrochromatic rearview mirror	Mode 2 (Type 2) 1.8 kW / 6-meter charging cable (domestic)
Driver's seat with electric lumbar support	Reversing camera
Programmed electrostabilizer (ESP)	Traction control system (TCS)
Non-metallic paint	Manually adjustable passenger seat
Monotone bodywork	Trunk with raised floor
Toyota Smart Connect Plus multimedia system: 12.3" high-definition color touchscreen, Bluetooth, USB, FM, and DAB (digital) radio connectivity, Apple CarPlay and Android Auto smartphone connectivity (wireless), onboard satellite navigation	Tire pressure monitoring
Rain-sensing front wipers	Electric, automatic folding and defrosting outside mirrors
Synthetic-wrapped steering wheel	Power steering
Electronic parking brake	Customizable 12.3" digital speedometer
Mode 3 (Type 2) 22kW / 7.5-meter charging cable (Wallbox)	Blind Spot Monitor (BSM) When sensors detect a vehicle in your blind spot, an indicator light illuminates on the corresponding exterior mirror. If you activate your turn signal to indicate a lane change while a vehicle is in your blind spot, an indicator light appears in the corresponding mirror to warn you of the danger.
Safe Exit Assist (SEA) This system helps prevent accidents by monitoring other road users approaching from behind. When it detects the presence of a cyclist or a vehicle, an indicator light appears in the exterior mirrors and on the multi-information display, and an audible alarm alerts occupants.	Black lacquered door B-pillars
Flush door handles	Exterior mirrors with ground lighting
ABS	Alarm with immobilizer function

Full-LED front optics

Manually adjustable driver's seat

Toyota Safety Sense: Pre-Collision System with vehicle, pedestrian (day/night), and cyclist detection, also active at intersections (PCS), Lane Departure Alert with Lane Keeping Assist, Lane Tracing Assist, and Driver Fatigue Monitor (LTA), Intelligent Adaptive Cruise Control with Stop (ACC), Traffic Sign Recognition with Speed Limiter (RSA) and Automatic High Beam (AHB), Autonomous Emergency Braking System (EDSS)
